

ZSAY-3 Aircraft Universal Static Adapter

“Setting Industry Standards Once Again”

FAA Certified Repair Station # DZMR112L
Cage Code # 3PTA2

General Information

The Model ZSAY-3 is an original design to help speedup and enhance your FAR 91.411 Static Leak checks. This light weight unit is extremely durable and convenient for day to day use in aircraft hangar, ramps and line service environments.

The Static Adapter provides a proven simple method to attached any Pitot / Static Test Set to the static system without breaking lines. There is no residue, no marring of the skin associated with other methods of sealing the static port. The adapter has a center cup that covers the static port and 3 articulating legs with suction cups to hold the adaptor in place utilizing the strong vacuum system, which secures it to the fuselage while testing.

Key Features

- Universal Adapter is designed to fit most General and Military Aircraft Fuselage static ports.
- Silicone Vacuum Cups automatically attach to the Aircraft Fuselage.
- High Output Internal Pump provides continuous Vacuum.
- System comes complete with Quick Release Fittings & Puncture Proof hose.
